## ➤ Our MISSION a special abode for the differently able

We wish to answer the question troubling the parents of special children above 18 yrs. "**what will happen to our children after us?**" Their wish is our mission.

We are looking out for places and people who can support us in this cause in providing them homely, comfortable & safe residential places, where they can be trained, live, learn, earn, and have a better, happy peaceful life.

Our mission is a journey and not a destination. There is a desperate need for a residential place for the mentally challenged in Baroda, especially girls.

Will you support and join us in this cause ?
